DoorID result:

PASS

The result at a glance

The evidence gathered during this visit supports the applicant being present at the declared address.

Reading this pack: journey status records progress · DoorID result records the automated outcome · DoorID review appears only when recorded.

Labels: APPLICANT-CAPTURED / EXTERNAL REFERENCE identify provenance · SCORED / OBSERVE-ONLY / UNAVAILABLE identify measurement status.

DoorID checked whether this applicant completed a guided journey at the declared address on the date shown, and whether the person on the driving licence matched the person present. PASS: the evidence supports presence at the declared address. REFER: read the 'Why this needs your review' section before deciding. FAIL: the evidence contradicts the claim. The decision is yours — this does not establish residence, ownership or identity, and is not a lending decision.
